I have been held in the Benton County Jail for 8 months now. I have went from weighing 413 to 308. I have talked to several different "Ranked Officers" about the Lack of nutrition. They say that we are provided 2300 calories a day. The Captain is quoted in the Newspaper on 3-15-08 saying that we are provided with about 3000 calories a day. When we put in a request to the Captain he replies we provide you

Statement of claim

Broderick L. Laswell

vs.

Sheriff Keith Ferguson
Captain - Hunter Petray

"You being inmates" Enough calories a day. The Captain has said that our menus are approved by a certified dietitian. If we are given enough calories a day we should maintain our body weight. On several occasions I have started to do some exercising and my vision went blurry and I felt like I was going to pass out. About an hour after each meal my stomach starts to hurt and growl, I feel hungry again. If we are in a small pod all day and do next to nothing for physical exercise we should not lose weight. On average I have lost about a half pound a day. This is not healthy at all. The only reason we lose weight in here is because we are literally are being starved to death. Also the portions change on each tray. There are noticeable differences on the size of biscuits and cakes, as well as the sides. Some meals we are given 2 sandwiches, a very small amount of chips, a small side of lettuce with a drizzle of dressing over the top, and 2 small cookies. Then we don't eat again until 6:00 am the next day. We are being starved to death in here. If an inmate is staying here over a long period of time his or her health decreases and they turn into skin and bones. This is cruel and unusual punishment. This jail was built with a state of the art kitchen which was priced at a little over 1 million dollars. The tax payers paid for this and it is not being used.

WRITTEN EXPLANATION: I have been in here for 8+ months, I have lost 90 lbs. I feel weak all the time and do not have energy. I have read several articles and turned in grievances forms and Captain Pedray's answer differs every time 1500 calories per day 2300 calories per day, 3000 calories per day. Which is it? If we eat and do nothing physical all day we should gain not loose weight! This is not healthy.
